## 4WD DEFENSIVE TRAINING MINING & LNG DRIVER SAFETY

Asia-Pacific's Leading Driver Training Provider

**School Driver Training:** Home of the SAFE DRIVE TEST DRIVE™ Young Driver Safety Program (55,000+ safer drivers since 1996)  
 School Expo and Physics in Motion™ Science Program (22,500+ participants since 2003)  
**Staff Driver Training:** Defensive, Company Fleet, Low-Risk, Eco-Driving, Train-the-trainer, Corporate Days, Safe Driving DVD  
**Safe Dirt Training:** Accredited Mining/LNG 4WD Training, High Range Gravel Defensive Driving  
**Sports Driver Training:** Advanced, Skid Pan, Super Drift Training, Car Club Events, Tyre/Vehicle Launches  
 Exclusive Asia-Pacific distributor for Fatal Vision Alcohol Simulation Goggles, SIDNE Drunk Driving Go-Kart, Skid Tyre, Simulators  
 Agents for Redline Breathalyzers, Cognifit Fleet Fit Program, Speedster Radar Guns, Tyre Gauges, IVMS systems

# Company Fleet Training: 2014

## Overview

Safe Drive Training is Asia-Pacific's leading driver training provider. This brochure outlines our **Safe Dirt Training** programs for 4WD users. Please contact us if you require information on our Company Fleet Safety programs for sealed roads. We have over 15 years' experience with 4WD training and mine site training for clients such as:

### Recent Australian Clients

John Holland Power	Tarong Energy	ERM Power	QR National	Origin Energy

Safe Drive Training operates 4WD training under the brand name SAFE DIRT TRAINING.

Safe Drive Training is part of the **Drive Safe Australia** National Training Network, which is Australia's only truly national driver training provider (see [www.drivesafe.com.au](http://www.drivesafe.com.au)). SDT operates under a covering RTO status from our sister company Drive Safe Australia (WA) based in Perth. Drive Safe Australia (WA) is a Registered Training Company (No. 2522). Drive Safe Australia (WA) is a leading provider of 4WD mining training in Western Australia. They are approved providers to many large mining companies and deliver training to numerous oil/gas/mining companies across the state.

Safe Drive Training is proudly sponsored by:

AMERICA'S MOST TRUSTED 4x4 TIRE

Asia-Pacific's Leading Driver Training Provider

# Defensive/4WD Gravel Driving

## RIIVEH201D – Operate a Light Vehicle (4WD)

This accredited course involves a mixture of lecture, demonstrations and in-vehicle driver training to address the risks associated with gravel road driving in remote locations and the additional risks associated with operating four wheel drives as compared to passenger vehicles. We have added additional content to this course to cover **Defensive and Safe Driving Practices**. Practical assessment is conducted on both sealed and unsealed public roads. This course covers:

**Theory training covers:**

- Road Law Knowledge
- Journey Management
- Tyre maintenance and inflation
- Driver Attitude and Behaviour
- Four wheel drive systems (part-time/full-time)
- Manual and Free-wheeling hubs
- Vehicle Technology (ABS, SRS, ESC)
- Fatigue Management

- Hazard Identification & Risk Avoidance
- Vehicle Operation & Control
- Reducing distractions
- Seating position and cabin safety (inc. Load security)
- 4WD Limitations and Risks Associated
- Correct engagement and disengagement of High Range
- Transmission wind-up
- Defensive/Low-risk Driving Strategies
- Alcohol Impairment (+ Beer Goggles demonstration)

**Practical training covers:**

- ABS & Braking Techniques (on gravel and tarmac)
- Low risk driving on unsealed roads
- Pre-start vehicle inspections and maintenance

- Braking distances and emergency braking techniques
- Accident Avoidance skills (on gravel and tarmac)
- Dealing with animal strikes (ie kangaroos)
- Wheel Change Procedure

**Things you should check with the training provider:**

*This course includes a on-road driver assessment as required by the competencies. Some driver training providers skip this component and run the risk of failing an audit of their training.*

*SDT has added extra Defensive Driving content and safety information to exceed the course requirements. As such participants receive a certificate in Defensive Driving and a Statement of Attainment for the RIIVEH201D qualification (if found competent in all assessments).*

*SDT conducts this training with instructor : participant ratios that allow assessments of competency to be thoroughly undertaken. We have seen some driver training providers have 20 participants and only 1 instructor on such courses and therefore risk conducting ineffective assessments.*

# Company Fleet Training: 2014

## COURSE DETAILS:

**Locations:** Course available across Qld, Australia and Asia-Pacific (can be conducted on-site)  
*Venues listed on Page 13 of this document*

**Duration:** 8:30 am – 4:15 pm (can alter to suit your plans)

**Dates:** See our website or contact our office for scheduled dates  
New dates can be created for groups of 6 or more participants

**Instructor/Student ratio:** 4 participants maximum per instructor (5 -8 participants require 2 instructors)

**Equipment:** Safe Drive Training will supply all training equipment. We use unique resources to enhance the learning outcomes of participants.  
*(laptop, data projector, driver training aids, assessment forms, handouts, tyre samples, car maintenance kit, Fatal Vision Alcohol/Drug impairment goggles)*

**Standard Inclusions:** Safe Drive Training will;

- o email attendance details and maps for booked participants
- o provide tea, coffee, meals and iced water for all participants
- o generate name tags for all participants
- o provide course gifts/handouts as outlined in this document

**Vehicles:** SDT will supply all 4WD vehicles for the training

**Catering:** Morning tea and lunch is supplied for all participants

Price:	<b>NUMBER OF PARTICIPANTS ATTENDING PER COURSE</b>		
		<b>BRISBANE (WILLOWBANK)</b>	<b>REGIONAL (SEE VENUES)</b>
	<b>1 – 4 DRIVERS ON SAME DAY</b>	<b>\$395 per person</b>	<b>\$440 per person</b>
	<b>5 – 8 DRIVERS ON SAME DAY</b>	<b>\$380 per person</b>	<b>\$420 per person</b>
<b>9 – 12 DRIVERS ON SAME DAY</b>	<b>\$360 per person</b>	<b>\$395 per person</b>	

## CERTIFICATION/ACCREDITATION:

Participants who complete this course and are assessed as competent, will receive Statements of Attainment (printed certificates) and a credit card style Training ID Card for the following nationally accredited course codes:

- **RIIVEH201D:** Operate light vehicle (4WD)
- **TLIC1051A:** Operate Commercial Vehicle

Asia-Pacific's Leading Driver Training Provider

# 4WD Off-road & Recovery

## RIIVEH305D – Operate & Maintain a 4WD Vehicle

The RIIVEH305D is a two-day accredited course. Day 1 includes all the elements of the RIIVEH201D (as listed on previous pages). Day 2 covers the essential theory and practical training to operate 4WD's in an off-road environment. This course covers the essential theory and practical training to operate 4WD's in an off-road environment. The theory presentation is 90 minutes and the remainder of the day is spent undertaking practical off-road and recovery training. The course content is:

### Theory training covers:

- Correct engagement and disengagement of Low Range
- Vehicle recovery techniques (operations and dangers)
- Vehicle technology when off-road (pro's and con's)

When four wheel drive should be employed

- Principles of "off road" driving
- Scenarios/Group Discussions
- Tyre pressures for off-road driving

### Practical training covers:

- Ascending/Descending slopes
- Driving on rough terrain (logs/rocks)

Driving on soft terrain (mud/sand)

- Stall Recovery from steep terrain
- Use of Snatch-em strap, winches and traction mats

This training is conducted at suitable venues across Australia. In South-east Queensland, we maintain our own private off-road training facility which has been purpose built to facilitate this training. Our site includes a classroom, steep descents, water crossings, muddy terrain, sand pit, log and rock obstacles.

Participants who complete the two-day course and are assessed as competent can get both Statements of Attainment (RIIVEH201D and RIIVEH305D). Because this course exceeds the competencies of **TLIC2025A: Operate a 4WD Vehicle** and **PMASUP236B: Operate Vehicles in the Field** a Statement of Attainment will also be issued for each of these course codes.

- **PMASUP236B:** Operate Vehicles in the Field

**SDT Instructors providing vehicle demonstrations for car and tyre launch events**

**Asia - Pacific's Leading Driver Training Provider**

# Company Fleet Training: 2014

## Vehicles Supplied:

SDT will supply 4WD vehicles for the delivery of the driver training. We have purchased new Mazda BT-50 models as they have the maximum 5 star NCAP safety rating and unrivalled safety features:

- Airbags SRS: front (driver and passenger)
- Airbags SRS: curtain (front and rear)
- Anti-lock Braking System (ABS)
- Dynamic Stability Control (DSC)
- Electronic Brake-force Distribution (EBD)
- Emergency Brake Assist (EBA)
- Emergency Stop Signal ESS
- Hill Descent Control HDC
- Roll Stability Control (RSC)
- Traction Control System (TCS)
- Side impact door beams, Collapsible steering column, Intrusion-minimising brake pedal
- Seat-belts 3-point lap-sash (all seats), seat-belts (front) with pretensioners and load-limiters

In addition the vehicle will be fitted with fire-extinguisher, first aid kit and IVMS (in-vehicle monitoring system) to record any incident during training. SDT vehicles are also fitted with Cooper 4WD Tyres (the leading 4WD tyre for mine site and off-road applications). Other vehicle models maybe supplied when necessary.

## Training Venues:

**\* THESE VENUES HAVE OFF-ROAD/LOW-RANGE DRIVING AREA FOR RIVEH305D TRAINING**

### QUEENSLAND

- CAIRNS: Cairns Speedway
- MAREEBA: Mako Trac
- TOWNSVILLE: Woodstock Motorcycling Complex
- PROSEPRINE: Whitsunday Raceway & Driver Training\*
- MACKAY: Mackay or Sarina Showgrounds
- ROCKHAMPTON: Gracemere Saleyards
- GLADSTONE: Gracemere Saleyards
- EMERALD: Central Highlands Driver Training Centre\*
- MARYBOROUGH: Maryborough Showgrounds
- ROMA: Ironbark Dragstrip\*
- WARWICK: Warwick Dragstrip
- BRISBANE: Willowbank Training Centre (near Ipswich)
- + Boonah 4WD Off-road Training Centre\*
- (courses can be conducted at Mt. Cotton on demand)

### SOUTH AUSTRALIA

- TAILEM BEND: Tailem Bend Motorsport Park\*

### VICTORIA

- MELBOURNE: 4WD Training Centre\*
- MILDURA: Sunset Dragstrip

### WESTERN AUSTRALIA

- NEWCASTLE: Newcastle Hillclimb Track
- GOULBURN: Marulan Driver Training Centre\*

**SDT CAN ALSO CONDUCT DRIVER TRAINING ACROSS ASIA-PACIFIC REGION**

Asia-Pacific's Leading Driver Training Provider

# Course Gifts/Safety Pack:

All course participants receive the following items to enhance their training experience:

**Certificate of Attendance:** All participants will receive a quality Certificate of Course Completion for display in their portfolio. Employers can keep certificates on-file to demonstrate the investment in driver training and compliance with OH&S and internal HSE policies. Participants could use their certificate to negotiate better rates for car insurance, medical coverage and life insurance.

**Defensive Driving Course Notes:** All participants for the 4WD Gravel (RIIVEH201D course) will receive a 23 page handbook on Defensive Driving. All participants for the 4WD Off-road (RIIVEH305D course) will receive another handbook. These handbooks summarize the theory delivered in each program. All participants also receive FREE ACCESS to our on-line Safe Driving Directory which contains many pages of safe driving tips and road safety information. Likewise participants are encouraged to subscribe to our SDT Facebook page which includes regular postings about safe driving.

**Vehicle Check Sheets:** All participants will receive a notepad containing Vehicle Pre-start Check Sheets. This enables participants to have a handy reminder of the check they need to make to a light vehicle on a daily or weekly basis.

**Disposable Alcohol Detector:** All participants will receive a Redline Disposable Alcohol Detector containing a single 0.05 BAC alcohol test unit. This allows the user to test their breath-alcohol level before driving a vehicle.

*Bulk packs of Redline are also available for companies to purchase.*

**Bumper Sticker:** All participants will receive a Bumper Sticker to attach to their company vehicle. This may serve as a reminder of the course, plus show other road users of the commitment the employer and employee has to safe driving.

**Digital Tyre Pressure Gauge:** All participants will receive a digital Tyre Pressure Gauge. This allows the user to check tyre pressures as part of their pre-start checks. The tyre gauge is a key ring, so it can be kept with each vehicle.

*Bulk quantities of gauges are also available for purchase.*

**Phone Cell:** Distracted driving is a major problem for company car drivers due to work pressures and performance expectations. Many multinationals have banned mobile phone use in vehicles. All participants will receive a Phone Cell, this practical zip-up PVC bag reminds mobile phone users to zip-up phone distractions while driving. When the phone is in the bag, the message couldn't be clearer "Park Your Phone, Drive Your Car."

## Safety Protocols:

Safe Drive Training operates these courses under the following safety regime:

- A risk assessment has been completed on all activities
- All instructors are trained and qualified for the program
- All instructors have current first-aid and CPR qualifications
- All instructors hold a Suitability Card for Youth Employment (Blue Card) and have signed an employee contract regarding sexual harassment and appropriate dealings with students
- A vehicle maintenance database and schedule is active on all training vehicles
- Vehicles undergo daily pre-course inspections
- Certain vehicles are fitted with dual-controls that allow instructors to stop the vehicle
- All vehicles are equipped with an AirAware Tyre Pressure Monitoring Systems to monitor tyre pressures and to prevent blowouts
- Certain vehicles are equipped with in-vehicle monitoring systems (video and voice recorders) which trigger to record dangerous vehicle movements and in-vehicle communications

A comprehensive **Risk Assessment** document can be supplied or downloaded from our website.

## Insurance Coverage:

Safe Drive Training maintains the following insurance coverage

- \$20 million Public Liability
- \$1 million Professional Indemnity
- \$20 million Product Liability

All SDT driver training vehicles are fully insured for training. Most importantly our insurance provider is fully aware of the training courses we conduct and therefore we have full disclosure and full coverage. Some driver training schools do not have correct insurance coverage for the training they conduct. If a vehicle is damaged during training, the company or participant is liable for the insurance excess, if caused by negligent actions, reckless behavior or failure to following instructions.

## Company Fleet Training: 2014

# Recent Feedback:

"It has been a pleasure to conduct business with you. Everyone has given great feedback and been very appreciative of the opportunity" **Ray Windridge, HSE Manager, Queensland Sugar Limited**

"The feedback is that all thoroughly enjoyed the course and found it relevant and educational, well done to the trainer". **Peter Miller, QHS&E Coordinator Australia, Exterran (Australia) Pty Ltd**

"I spoke with the guys this morning who spoke very highly of the training and advised that you were very thorough in your training. Thanks a lot for being so professional whilst taking a casual approach to the training that you deliver, I am greatly appreciative that you can tailor a course to Salva's requirements. Again, thanks a lot, you guys are doing a TOP job!" **Shaun Rayner, HSE Manager, Salva Resources**

"The feedback was fantastic, everyone that I have spoken to was very positive of the day. All your team did a remarkable job." **Lisa Julian, GWA**

"Very successful training and enjoyed by all I think. I didn't have much time to spend with your instructor (Nachiket) but the feedback was very positive on his approach." **Stephen Parkinson, Production EHS Lead, Santos Sangu Field Limited (Bangladesh)**

"Regarding the training that you provided to us back in 2008, since the course there have been no accidents as a result from reversing. I can honestly say there has been a marked improvement in accidents altogether. Thanks so much for your help." **Kym Nunan-Squier, HR Manager, Maroochy RSL Club**

## Since the course there have been no accidents

"Thanks Mate. Everyone including myself was very impressed and got a lot of value out of the 4WD training. There was no negative feedback at all which was a pleasant surprise." **Craig Moore, Health & Safety Training Coordinator, Grosvenor Coal Project, HATCH**

"I thought I would let you know that I thought the course that was conducted over the two days this week was excellent. The trainers Brendon and Nick were great and really knew what they were on about. In particular, Nick was awesome, he was very patient with us yesterday (the three of us were quite green when it came to operating 4WD in a defensive way, especially me) and he was very professional. We walked away impressed and very happy that we chose your company to complete this training for us." **Douglas Howard, PNG-LNG HSS Coordinator and Project Duty Officer, Coffey Environments**

"Thank you very much for the training that occurred yesterday. The boys learnt a lot and really enjoyed themselves in the process." **Kayla Nixon, Dalrymple Bay Coal Terminal Pty Ltd**

"I would just like to thank the SDT team for a great 2 days last week (RIIVEH305A course). Everyone had a lot of fun and hopefully learnt a thing or two. It was good that the weather held out and it was a great couple of days." **Brent Shore, Rio Tinto Exploration**

"The training was great!!! You all do such a wonderful job. I have got nothing but positive feedback and I personally had an excellent day!" **Carissa Carter, QR National Network Services**

Asia - Pacific's Leading Driver Training Provider

## Company Fleet Training: 2014

"Everyone seemed to enjoy the 4WD training days, our instructors were great, very approachable. A few staff members mentioned that they would like to do another course, maybe something more advanced using mud, slippery surfaces or heavy gravel to take them out of their comfort zone." **Sally Henry, Boggabri Coal Pty Limited**

"Everyone was thrilled with the training. Not only was it highly educational and also a lot of fun." **Aimee Munro, Recruitment Specialist, Tarong Energy Corporation**

## Everyone was thrilled with the training

"The training was excellent. THANK YOU VERY MUCH!. It was very well received by the business. The instructor (Ian) went over and above his call of duty. He is very helpful, enthusiastic and knowledgeable in this arena." **Robertson Anis, Team Cordinator OHS, Ok Tedi Mining Limited (Papua New Guinea)**

"Just wanted to thank you for organising the two training sessions for us. My understanding is that our staff were very grateful for the course and advice given etc. They all tell me they got a lot out of it. I personally attended yesterday's session. We had Dennis and Graham as our instructors. I am not sure who the instructors were for the first session but I personally found Dennis and Graham very good and supportive of all our efforts. The course was presented very well. Thank you very much." **Ed Sciortino, Financial Controller, Marubeni Power Services**

"I did that defensive driving course yesterday and mate all I can say is it was excellent. If there is any way that we as AECOM can get more of our field staff to do it I really think it would add huge value towards keeping our people safer. It not only creates awareness of safe driving but targets the bad habits that people fall into. The fact that you get practical experience in doing what you are taught really helps. How many people have even felt ABS, let alone how to make a car stop in the most effective way not relying on the ABS. The skills, techniques and information sharing is invaluable and I would really recommend it to anyone within our company (especially those at risk in respect of going to site regularly or travelling large distance). I don't know what it cost, but I think what we learnt is invaluable. **Vaughan Geldenhuis, Transport Network Reconstruction Program, AECOM**

"I would just like to say thanks to both yourself and Jamie for all your efforts this last week in bringing all the Instructors along in not only their driving skills and knowledge but also their presentational and instructional skills. This will benefit them all individually as well as the Training department and the Company as a whole. Thanks once again" **Frank Sullivan, National Training Development Manager, G4S Security Solutions (PNG) Ltd.**

"The (4WD High Range) training went down really well with everyone. It was certainly a valuable exercise that gave people an appreciation of vehicle behaviour when under non-standard driving conditions. We will be looking to hold a further session when we have our site team established. Thank you and I look forward to being in touch again shortly." **Robbie Watt, Senior Safety & Risk Advisor, Origin Energy (Adelaide)**

"We have had the first of our two Safe Driving Lecture sessions and I heard our staff in the corridors talking about this training, they have especially been commenting on the presenter. They are saying that he is a brilliant presenter, "he is really passionate about what he is doing" and "knows what he is talking about". Staff have been very positive about attending the course. Thanks SDT!!!" **Lesley Raetz, AQIS**

"This is just a quick response - I'm out at the Surat Basin in the oil and gasfields all week and internet access is limited and difficult. I had intended to send a thank you and follow-up on the course. From our point of view it was a great success and met our expectations. Feedback from everyone who attended has also been very positive. And the course, as facilitated by Denis was well done. He was very informative and instructive." **Trevor Love, AUSSAFE**

"I just thought that I would let you know that I have received nothing but positive feedback about Friday's safe drive training course. Participants thought that each part of the course was informative, fun and worthwhile and that the instructors were fantastic." **Melanie, Heart Foundation, Brisbane – Australia**

## A wonderful, well organised and invaluable course

Asia - Pacific's Leading Driver Training Provider

## Company Fleet Training: 2014

"Approximately a year ago, our entire company attended a defensive driver training course at Willowbank, which was very well received and it is now part of our policy that all staff members should undergo this course."

**Melanie Wright, Condamine Alliance, Toowoomba - Australia**

"Firstly, I wish to express our appreciation in your teams professionalism & guidance on Tuesday. Everyone thoroughly enjoyed themselves, as well as learning lots of important things about driving safely. Your instructors are a credit to your organisation. They were all extremely helpful, patient and friendly towards us all. Both groups got heaps out of the day. The Defensive group are already talking about when they will do the Advanced course. The Advanced group are wondering what they can do next?" **Peter Moeser, Austrade, Brisbane - Australia**

"I would like to let you know that I had a fantastic time on Friday – not only was it informative but also very fun. Ian the main presenter did a fantastic job at making what could have been a very dry subject very interesting, entertaining and educational. The mix of practical and theory was enjoyable and broke the day up so that most the information will stay with me for a long time. Thanks for organising and well done to whoever chose Safe Drive Training." **Melinda King, Runge Limited, Brisbane – Australia**

"Thanks for your training, even the training course was short (2 days), it helped us to have the knowledge about how to drive safety & the attitude when driving also. Your practical lesson was unique for Vietnam, but it was very interesting & useful for us." **ANH, Dao Thi Hong, Air Liquide (Vietnam)**

"The feedback has been very positive! Thank you very much for the day I think everyone thoroughly enjoyed themselves" **Jessica Collison, Energex, Brisbane – Australia**

"You will be pleased to hear the defensive driving day has had a real impact on the choices and decisions around how we operate and maintain our vehicle fleet. I thought I was a reasonably safe driver before the course however I feel I am much more effective now. Again, many thanks! **Jamie Toth, Sentis**

"The participants thoroughly enjoyed the training day. Made lots of jokes about everyone's driving ability and found it very beneficial for improving their driving skills. Many thanks." **Susan Hunter, BHP Billiton, Brisbane – Australia**

"Although I have been driving for the last 30 something years, it was very enlightening and was a great prompt of the bad habits that we have gathered over the period. Learning to drive a lot further in advance of the vehicle than what I previously did was difficult to change but now comes naturally, and skid control if you do get into the situation will be less of an issue than previously. I recommend this for all Projects and also 4WD for remote sites where we predominately use the 4WD's" **HSE manager, Ausenco**

"The course was well received by all involved. All participants walked away with a better understanding of how our fleet operate and learnt some new techniques. Thank you to you and your staff on the day. They were very professional and knowledgeable. Thank you for your assistance." **Daniel McGaw, Ergon Energy**

"The training went just great. Got some very positive feedback. One thing which has come up repeatedly is how Patient and Friendly your training staff were to everyone. They were able to take those who were very nervous about the driving exercises and put them at ease and back into control of their fear. Well done instructors. As the organiser from the Griffith side I must say how much I personally appreciated the professionalism and the assistance of the SDT management. Please pass on my thanks to them all." **Colin England, Griffith University**

"Thanks for the recent defensive driving course. All the participants reported that the course was both very educational and enjoyable. You will also be interested to hear that the business group won a WH&S recognition award from Griffith Uni for introducing defensive driving for their staff. Thanks again for a great course" **Scott Burnell, Team Leader, Griffith Uni**

*Photo: Colin England "Planning and Management Support Coordinator" and the "Dean Academic" Professor Marie Wilson from the Griffith Business School, Griffith University. The award is for the "Best Health and Safety Initiative, 2010" Griffith University Health and Safety.*
